

Children's and Young Persons Disability Database

This is a register of all children and young people whose parents or carers have notified us of a disability or additional need that impacts on their day-to-day life.

This information is then used to determine where funding could be best used for optimum benefits.

[Why should you register your child?](#)

Funding is limited...so

- Your child's needs will be considered when decisions are made about where funds are going to be used.
- You will be kept informed about support, activities or services.
- You will be issued with a photo ID card for your child which could enable certain privileges for you and/or your child...see below
