

Do you have what it takes to

# make a difference?

Foster a **sibling group** in

# Peterborough

Peterborough is the fastest growing city in the UK and as a council, we're working hard to improve the quality of life for all of our residents.

At the heart of our children's services is a dedicated team of foster carers who look after the city's most vulnerable children, supporting their education and inspiring them to prosper.

Fostering benefits the entire community so if you have a spare bedroom and the time to offer a local child in need, then we'd love to talk to you.
